The Warren Report, pp. 736-7 and attached notes, gives a false account of Oswald's return from Mexico.

To the best of my knowledge the FBI report establishing that Oswald did not cross into the U.S. "At about 1:35 a.m. on October 3" was not given to the Commission by the FBI.

I believe this adds importance to the record I've given you exclusively.

Of course if the record's information was given to the Commission then the matter is even more serious and the deception and misrepresentation cannot have been an innocent Commission error.
